Janet

I wanted to give you a quick WY RH update. We have sent the current draft NPR to OAQPS and Lea for their review and comment - see Laurel's email below. We are asking for their comments by 5/8.

After we address their comments I plan to send the revised notice to you to take a look at - I'm planning for 5/9 or 10. I would request that you get us any comments or edits by the middle of next week - say 5/15. Howard didn't want us to rush next week in order for him to sign by 5/17, so our new RA (lucky guy) will probably get to sign the proposal the next week (on or before 5/23).

How's that sound to you?

Subject: Wyoming 309(g) Proposal for Review

Hi all:

Attached is the revised Wyoming 309(g) proposed rulemaking for your review. One thing to note, most of the notice has remained unchanged from our original proposal except for the BART SIP/FIP sections and the costs/visibility for Dave Johnston Unit 1 and 2 in the RP section. Lea – please note that Sara has a specific question for you on page 104. We are hoping to get your review by COB 5/8. Thanks for your help and let me know if you have questions.
